

2009 Report to the Community

Responding to the Present

Preparing for the Future

Yoe Fire Co. Ambulance Service Inc.

2009 Report to the Community

Administrative Team (From Left to Right): EMS Chief Ted Hake, Physician Medical Director Dr. Thomas Westenberger, and Book-Keeper Darcy Daugherty.

I am pleased to present to you Yoe Fire Company Ambulance Service's 2009 report to the community. 2009 saw a continued trend of growth in the demand for our services, as well as service enhancements to improve our ability to provide emergency medical services (EMS) to the communities we serve.

During 2009 our agency responded to 4,024 requests for emergency ambulance service, an increase of 10% over 2008.

Early in 2009 the Board of Directors, after evaluating our current facilities and future needs, decided to pursue the purchase of a parcel of land centrally located within our response area. After evaluating several options, a 1.6 acre parcel of commercial land was purchased on Course Road in York Township. This parcel is located just one block from the geographic center of York Township, the intersection of Leader Heights Road and South Queen St. The current intention is to construct an EMS station and administrative headquarters within five to nine years.

Since 2008, Yoe Ambulance has owned four ambulances, staffing one at each station 24 hours a day. Each year we are unable to respond to some emergency calls, because we are already committed to another call. In this instance the 911 center immediately dispatches another nearby ambulance to handle the call. In 2008 we handed-off almost 500 calls to neighboring EMS agencies, because we were already committed to another call. In an effort to better meet the needs of our primary service area, a second ambulance was staffed from the Yoe station from 6 AM to 6 PM, Monday through Friday throughout 2009. This ambulance responded to 510 emergency calls during the calendar year and is staffed through two additional full-time positions.

In October of 2004 Yoe Ambulance began operating a satellite location at the Goodwill Fire Company in York Township (Ambulance 19). Ambulance 19 had grown to a 24-hour a day operation by 2008 and handles almost 2,000 calls each year. Initially, Ambulance 19 was operated as a basic life support (BLS) ambulance. An extensive review of operating data revealed that more than 50% of the calls Ambulance 19 was dispatched to required advanced life support (ALS) paramedic level care, the same type of service offered from our Yoe Borough location since 2006. In an effort to provide the same high level of service from both of our locations, and after a thorough evaluation of the financial implications of an ALS service line enhancement, Ambulance 19 was transitioned to ALS level service on July 1, 2009. During this transition the Yoe

2009 Report to the Community

Ambulance Service was able to foster a much improved working relationship with York Hospital's Medic 97, the former provider of ALS to Ambulance 19's response area.

After recognizing that the size and complexity of Yoe Ambulance had increased dramatically over the past five years, the Board of Directors embarked on a formalized strategic planning process - a first for Yoe Ambulance. Eight areas of operation were targeted for planning. Senior staff, management, and the Board of Directors convened in October and developed a three year strategic plan, guided by the mission statement of our organization. The newly created strategic plan will provide an invaluable framework of guidance for staff, management and the Board of Directors in years to come. A copy of the plan is available upon request.

As the community grows and changes, Yoe Ambulance will continue to evolve. We are committed to being responsive to the needs of the municipalities we serve and to providing the highest quality of emergency healthcare and transportation to our patients. As the economy and healthcare rapidly change, our greatest challenge will be to assure that our financial resources will sustain the services demanded by the communities we serve. I welcome any questions or inquires you may have after reviewing this report.

Sincerely,

Ted Hake B.S., NREMT-P
EMS Chief/Chief Operating Officer

The Yoe Ambulance Service Fleet - December, 2009

2009 Report to the Community

Fast Facts

Founded: October, 1972; Incorporated as a 501c3 Non-Profit Corporation in 1977

Municipalities Served: Yoe Borough, Dallastown Borough, Windsor Twp. & York Twp.

Population Served: 35,000

Primary Response Area: 30 Square Miles

Number of Stations: 2
